DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house is part of the Charles Mill Complex and was presumably used as a secondary dwelling, perhaps as a miller's house. It is a two story, four bay structure and may have been a duplex since it has entrances at each end of its front wall and a large central chimney. The house would appear to be of frame construction and is sheathed with asbestos shingle siding. Windows have six over six pane sashes. A 20th century hipped roof porch extends along two sides of the building.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This vernacular structure apparently was a support dwelling at a large milling complex. Its appearance suggests construction during the mid 19th century, and that it is a frame building which is relatively unusual before the late 19th century in Washington County.
